Program Overview

2023-2024

The Associate of Arts with an emphasis in economics offers an excellent foundation and development of necessary critical thinking skills. Economics is the study of choices so these first two years will prepare students for in-depth analysis to come in the future. Students have two options within our program: business economics or graduate school preparation. Students will be prepared to continue their economic studies with a junior-level standing at a four-year university.

The Economics Transfer Pathway AA offers students a powerful option: the opportunity to complete an AA degree with course credits that directly transfer to designated Economics bachelor degree programs at Minnesota State universities. The curriculum has been specifically designed so that students completing this pathway degree and transferring to one of the seven Minnesota State universities enter the university with junior year status. All courses in the Transfer Pathway associate degree will directly transfer and apply to the designated bachelor's degree programs in a related field.

Minnesota State Universities: Bemidji State University, Metropolitan State University, Minnesota State University Mankato, Minnesota State University Moorhead, Southwest Minnesota State University, St. Cloud State University, Winona State University.
