You are a **Visual** learner! Check out the information below, or [view all of the learning styles](#).

Visual

If you are a visual learner, you learn by reading or seeing pictures. You understand and remember things by sight. You can picture what you are learning in your head, and you learn best by using methods that are primarily visual. You like to see what you are learning.

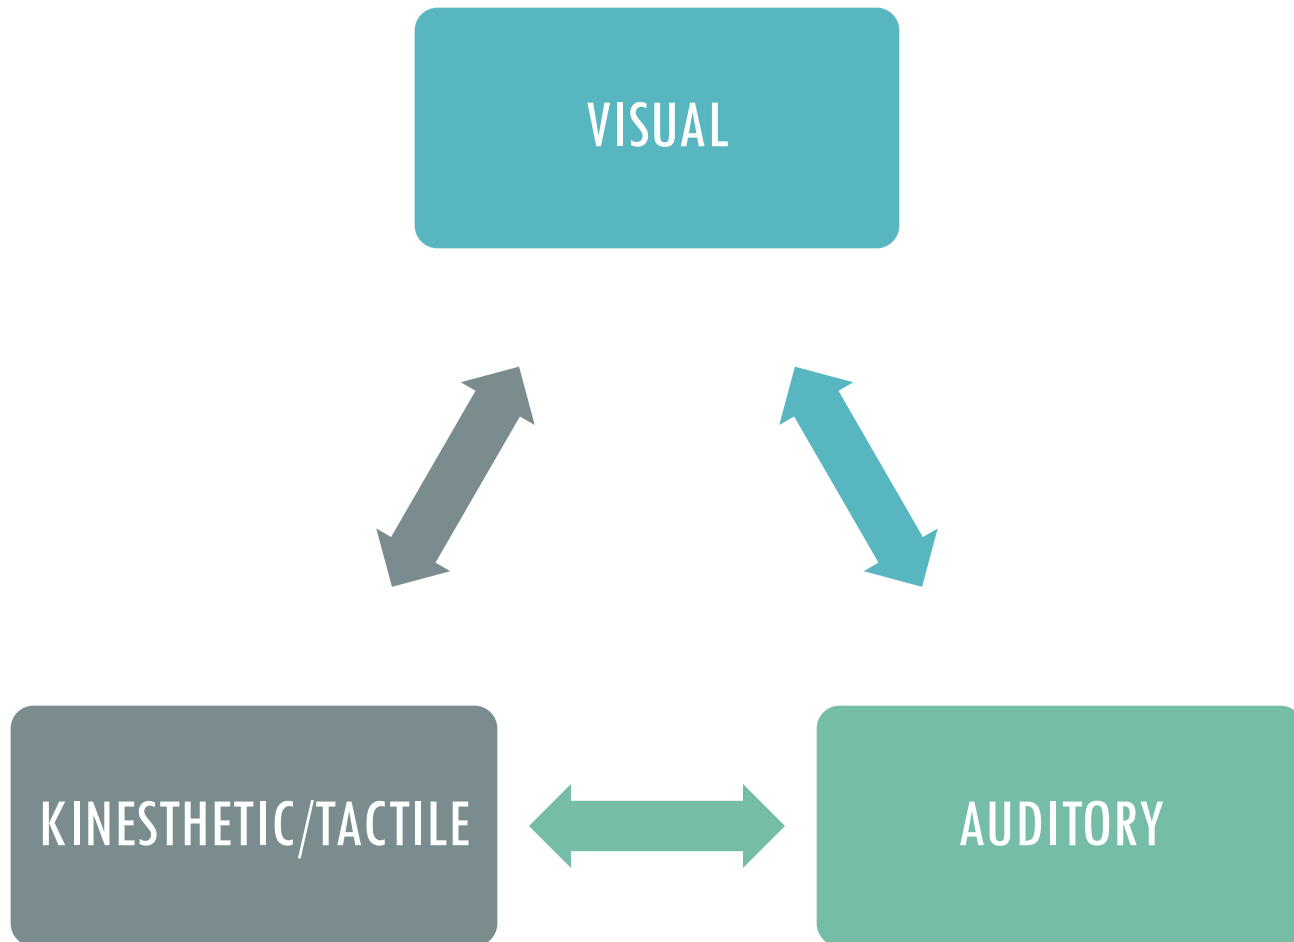

As a visual learner, you are usually neat and clean. You often close your eyes to visualize or remember something, and you will find something to watch if you become bored. You may have difficulty with spoken directions and may be easily distracted by sounds. You are attracted to color and to spoken language (like stories) that is rich in imagery.

Here are some things that visual learners like you can do to learn better:

- Sit near the front of the classroom. (It won't mean you're the teacher's pet!)
- Have your eyesight checked on a regular basis.
- Use flashcards to learn new words.
- Try to visualize things that you hear or things that are read to you.
- Write down key words, ideas, or instructions.
- Draw pictures to help explain new concepts and then explain the pictures.
- Color code things.
- Avoid distractions during study times.

Remember that you need to **see** things, not just hear things, to learn well.

WHAT REALLY ARE THE LEARNING STYLES?

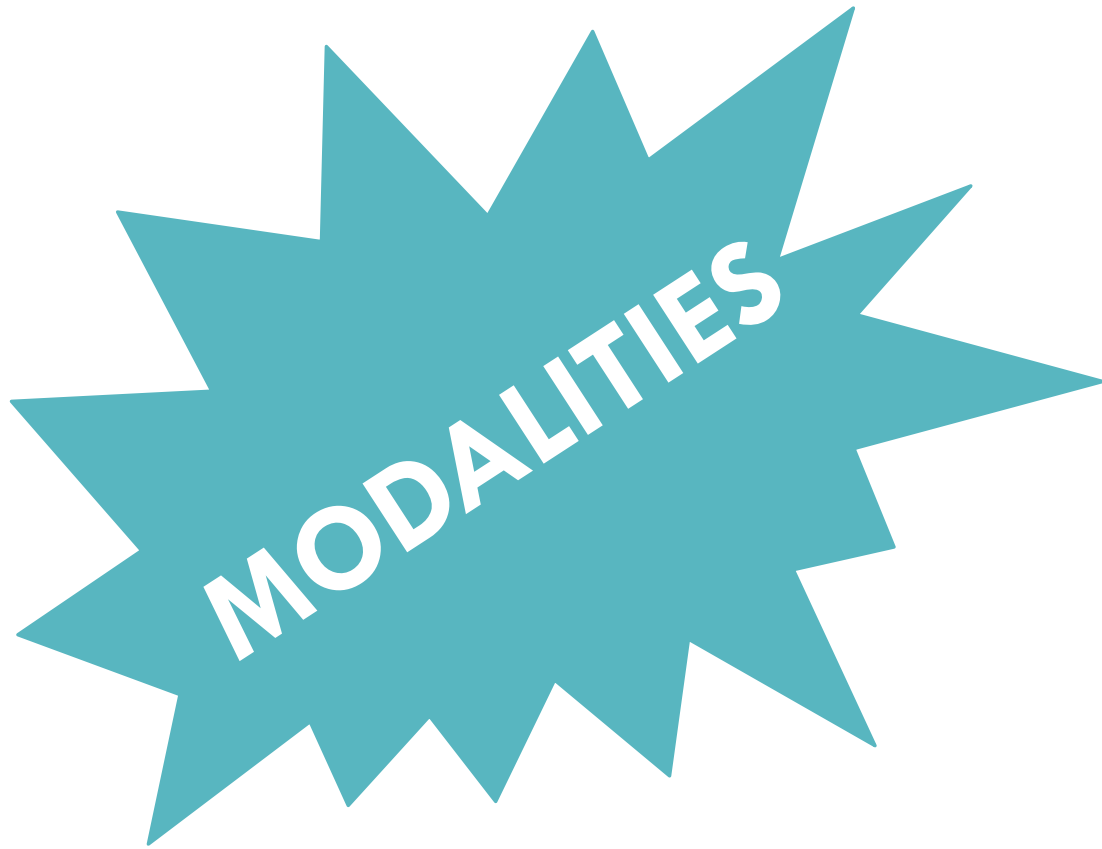

- ❖ Work together rather than individually
- ❖ Source of identity for success
- ❖ Provide multiple pathways to success
- ❖ Aid us in finding meaningful connections between what we learn
- ❖ More of a preference than style

What are my options?

webReader

Used to listen to D2L course content (assignments, quizzes)

docReader

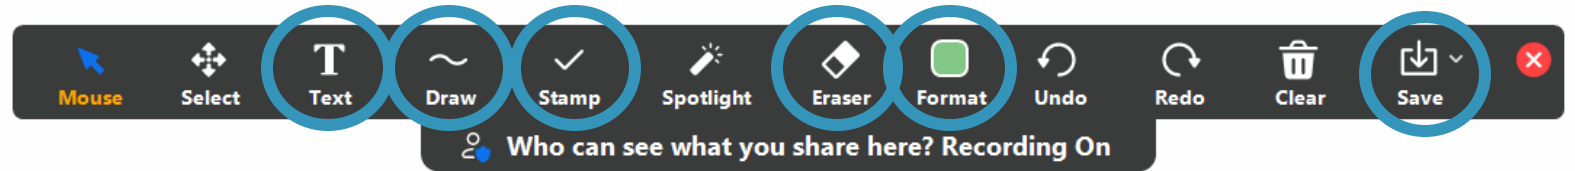

Used to listen to documents (Word, PPT, PDF) in D2L courses

TextAid

Used to listen to webpages, ebooks, scanned documents

ZOOM ANNOTATE

Other Info to Remember:

- ❖ Allows you to collaborate & engage no matter who is sharing their screen
- ❖ If you make an annotation while someone else is sharing their screen, your name will appear next to it.
- ❖ Must be turned on in your Zoom settings

BILATERAL SCRIBBLE DRAWING

Importance:

- ❖ Helps regulate emotions/anxiety
- ❖ Gives your mind a short break

How-to:

- ❖ Grab blank piece of paper & 2 colored writing tools
